官方資訊摘要

【Competition】
The International Biology Olympiad is an annual secondary-school biology competition with theoretical and practical examinations. The 38th IBO is accepted for Warsaw, Poland, from July 18 to 25, 2027.

【How to Participate】
There is no independent application to the international event. A student must win or qualify through the National Biology Olympiad in their country or region and be selected as an official representative. Each IBO member country or region may send up to four students.

【Eligibility】
Participants must be under 20 on July 1 of the competition year, may participate at most twice, must not have started university as a full-time regular student, and must be enrolled in a regular secondary school for general education. Local coordinators may apply additional national selection rules.

【Competition Week】
The official model includes practical examinations, theoretical examinations, scientific and educational sessions, excursions, and an awards ceremony.

參賽資格

Official national or regional representatives only; up to four students per IBO member delegation. Under 20 on 2027-07-01, maximum two IBO participations, and not a full-time university student.

獎項 / 結果

Medals are determined from the official IBO ranking under the Operational Guidelines. Students must qualify through their National Biology Olympiad; independent entries are not accepted.
